

POWER WALLBOX 22.0

SMART EV-CHARGER

- Intelligent and configurable load management
- Keyswitch for easy program selection
- Operating states are visualized via LED display
- Visualization via web interface
- Integrated DC leakage current detection requires only RCD type A
- Connection cable with type 2 plug
- Identification and load activation via RFID card

Power Wallbox	22.0
Order number	ZWB022N1BF0

GENERAL

Grid connection	3-phase 400 V
Nominal voltage	400 V
Rated current	32 A
Maximum charge	22 kW
Connector type 2	5 m cable straight
Protective switchgear	LS 16 A 3p
DC leakage current detection	electronic 6 mA
Conductor cross section of supply line	min. 6 mm ² / max. 10mm ²
Power Storage interface	LAN
RFID function	integrated
Colour	white
Dimensions (height x width x depth)	477x400x164 mm
Weight	22 kg
Complementary functions	web server, load recording, energy meter, load management, operating states via LED display

SECURITY / STANDARDS

Safety class	II
IP degree of protection	44
Certificates	IEC 61851-1, IEC 61851-22
Warranty	2 years
